

AGTRADER MONTHLY

ADVERTISING FEATURE

No substitute for experience

Speed Detailing Pty Ltd owner and director Lyndon Walker breathes passion, commitment and disciplined work ethic when it comes to restoration.

SPEED Detailing Pty Ltd faithfully restores farm machinery and hard working equipment back to life to look new again.

"Going beyond the extra mile for all our clients is the key to our service that is needed across all sectors," Mr Walker said.

"We work on everything from tracks, wings, wheels, boats, from your beloved, cherished vehicle to a fleet of machinery.

"There is nothing we cannot handle."

Every detailing job Speed Detailing carries out is different and needs a special process and application to achieve the perfect result.

"Detailing is a gifted art form and nothing less than perfection is accepted by Speed Detailing," he said.

"Speed Detailing specialises in every facet of detailing imaginable, including interior, exterior and undercarriages through to aluminium polishing.

"The interiors of hard-working cabins are fully cleaned using the Speed Detailing method to smell like a brand new vehicle."

Mr Walker started the business in 2012 to provide the agricultural, mining and earthmoving sectors with

ATTENTION TO DETAIL: Speed Detailing owner and director Lyndon Walker says it's important to maintain the value of your machinery.

a service to restore their machinery to look like it has just arrived fresh from the showroom.

His attention to detail transforms and restores sun-faded surfaces so they look like a brand new piece of machinery.

With such success, Speed Detailing has grown and is growing more day by day, with expansion plans under way.

"Speed Detailing will be incorporating and introducing our global arm - Speed Global Detailers Pty Ltd - to our detailing group soon," Mr Walker said.

"We will offer our services globally, and bring our

untouchable service to your front doorstep anytime, anyplace, internationally."

To date, Speed Detailing has completed and detailed more than 150 clearing sales across Queensland, NSW, South Australia and beyond.

"We are proudly serving and supporting all our country and rural clients, 24/7," he said.

"The best news is that I come to you, and I don't charge for travel to and from your location."

Speed Detailing is happy to supply an obligation-free quote to restore your equipment to new.

The reason to restore your vehicle is not just the per-

sonal pleasure of having that shiny, "new" tractor.

"Presentation is the key to the sale of any item," he said.

"About 70 per cent of agricultural machinery needs to be rejuvenated, not just repainted."

"If you're considering selling, trading in or getting an insurance appraisal for your equipment, Speed Detailing can add thousands of dollars to the value of your vehicle."
